

## RAIDS CONTINUE AS ATLANTIC CITY IS MADE BONE DRY

One Hundred Federal Agents  
Make Arrests on Orders  
From Washington.

ATLANTIC CITY, July 19.—Federal prohibition enforcement agents, led by Sam H. Cone, Chief of the New Jersey "dry" forces, to-day continued the raiding of alleged liquor-selling resorts here. More than fifty warrants have been issued for hotel, restaurant and soft-drink parlor proprietors and their employees. Those arrested are being arraigned as rapidly as possible before United States Commissioner John E. Izard, who is setting bail of between \$1,000 and \$5,000 for proprietors of places raided and \$500 each for waiters and bartenders.

The raids are being conducted on direct orders from Washington and are entirely independent of county and local authorities. More than \$50,000 worth of confiscated liquor gathered by the Federal raiders is being temporarily stored at Eldridge's Warehouse here. A number of new warrants it is expected will be issued to-day.

The activities yesterday put twenty-seven bartenders and owners under arrest and accumulated a thousand quarts of whiskey, forty kegs of wine and beer, moonshine, red-eye and sundry unnamed and unnumbered concoctions.

For more than three years an oasis for the thirsty in the midst of a more or less arid United States, this place to-day is as dry as 100 Federal prohibition agents determined on business can make it. Between the arrests actually made and fear of those to be made, the resort is really absolutely and heartbreakingly dry.

"We are starting in to-day to clean up Atlantic City," said Mr. Cone, "and there is to be no monkey business about it. After we have arrested all of the bootleggers, and even while we are doing it, proceedings are being instituted to bring injunction proceedings under section 23 of the National Prohibition Act against the places, saloons and safe alike, as common nuisances, to keep them locked up for a year."

E. B. Henson, assistant to John R. Appleby, Chief Enforcement Officer for the Second Division, declared to-day that the clean-up movement would include all of New Jersey, and sections of New York.

"The Federal activities in Atlantic City," Mr. Henson said, "mark the beginning of a movement which will extend through New Jersey and sections of New York. The clean-up will not stop in Atlantic City, which has been found to-day one of the most moist spots in the State. The Government means business and there will be no trifling in sincere efforts to make New Jersey and New York as dry as is physically possible."

### Women Form "Wet" Club as Defy to W. C. T. U. Claims

The Molly Pitcher Club of the women's division of the New York Women's Division of the New York Amendment was formed yesterday at a luncheon given at Sherry's by Major Gen. Daniel Appleton, Vice President of the association. The General said:

"The Volstead act is a falsehood and has no place in our law. Every thinking man and woman demands its modification or repeal. The W. C. T. U., according to the Signal Union, has declared that women of this country are unalterably opposed to any change in the Prohibition Law. Our answer to-day is to launch the Molly Pitcher Club and to call for 1,000 women recruits of this club for our army. This fight against Prohibition is doubly a woman's fight, for it is not only a fight for American ideals but it is the first big battle in which women have equal rights with men."

Twenty women enrolled as members of the club. Among those invited to the luncheon were Mrs. Ransom Gillette, Mrs. William Hofstra, Mrs. Charles E. Proctor, Miss Maude Leland, Mrs. Adolf Ladengerg, Mrs. Morgan Belmont, Mrs. Devereaux Emmet, Miss Elizabeth Marbury, Mrs. William Sheehan, Mrs. Richard H. Wilson, Mrs. Frank Leavitt, Mrs. Juliana Cutting, Mrs. Patty Pease, Mrs. John Purroy Mitchell, Mrs. Walter Jennings and Mrs. Frank Henderson.

### YUKON TO STAY WET BY U. S. ORDER FOR TWO MORE YEARS

Special Permission Given to  
Ship Liquor Through  
Alaska.

DAWSON, Y. T., July 19.—Thanks to special permission from the United States to ship liquor through Alaska, this northland will remain "wet" at least two more years.

The United States scared the folks up here with a recent order prohibiting the transportation of intoxicants through this territory on the way from one wet country to another. All roads to the Yukon lead through Alaska. The special dispensation became known to-day to parties most interested.

## 4 NIECES CONTEST LIPPINCOTT WILL LEAVING MILLION

Action Started in Newark  
Against Mrs. Bartlett, Sister-in-Law of Decedent.

Four nieces are attempting to break the will of George T. Lippincott of Atlantic City, who left his entire estate, reputed to be worth more than \$1,000,000, to his sister-in-law, Mrs. Margaret Bird Wolbert Bartlett of Atlantic City.

Through counsel, Robert H. McCarter, the nieces to-day applied to Vice Chancellor Foster in Newark to appoint an administrator pending a decision in their suit to have the will annulled. Control of the estate is now in the hands of Mrs. Bartlett. Her counsel oppose the appointment of any other administrator.

Vice Chancellor Foster named Harvey F. Carr of Camden, retiring President of the State Bar Association, who will act with Mrs. Bartlett until the suit is settled. An affidavit by Mrs. Bartlett said that she has already paid the inheritance tax on personal property of the estate valued at \$547,248.13.

Lippincott died on Feb. 14, 1921. His will left all of his property to his wife, but after her death, in 1917, he made a codicil, according to counsel for Mrs. Bartlett, leaving everything to her. The codicil did not really accomplish the will produced after Lippincott's death, according to the nieces' contention, but went with another will, which has never been produced.

## Husband No. 1 Does Not Want Her; No. 2 Does

To Arrange for Divorce So  
He Can Remarry Self-  
Confessed Bigamist.

After Mrs. Edna Keller Baudendistel Feuhrer had pleaded guilty to bigamy in General Sessions to-day, Judge Mancuso suspended sentence on the plea of the second man she married, Edwin R. Feuhrer of No. 336 West 57th Street, who said he would arrange for her divorce from her first husband, Joseph D. Baudendistel of Cliffside, N. J., and would remarry her.

Baudendistel, when asked by the judge what he thought of the matter, said: "I don't care what you do with her, Judge; I want to get rid of her."

The woman who is a beautiful blonde of twenty-six years, turned her face away from Baudendistel and Feuhrer stepped forward.

"I do care, Your Honor," she said. "She is about to become the mother of my child and I want to give her and my child my name legally as soon as I can and cherish and care for her always."

Judge Mancuso said he was influenced to leniency not only by Feuhrer's plea but by the report of Miss Sprague, the probation officer, that the defendant's life with Baudendistel had been almost unbearably unhappy until she left him March, 1921, after five years. She was married to Feuhrer in July, 1921, at the Municipal Building.

### JESSE JAMES JR. AT WORK IN JERSEY

Ten-Year-Old Hoboken  
Bandit Gets \$4.90 in  
Hold-up.

A ten-year-old bandit is sought by the West Hoboken police.

The victim of the desperado is David Scheldens, eight, of No. 490 Bergenline Avenue. His mother sent him to the grocery store to make a ten-cent purchase and gave him \$5.

On his way home with \$4.90 in change David says he met the robber.

He's bigger'n me—mus' be ten or eleven," said David, "an' he had a handkerchief over his face so I couldn't tell who he was."

"Gimme that money you got," he says, "or I'll bust y' in y' eye."

Then he grabbed the money an' ran."

David told his mother and she told the police.

### REAL ESTATE MAN IS SHOT AT BANK

Bigo Giordano of Brooklyn  
Wounded in Leg by Un-  
identified Assailant.

Bigo Giordano, No. 435 Clinton Street, Brooklyn, a real estate dealer with offices at No. 158 Sackett Street, was shot twice in the legs at noon to-day in front of the Sasso Brothers' Bank, No. 133 Union Street, by a man who escaped.

Giordano had just made a deposit and was leaving the bank when he was attacked. A number of persons ran to help him, but none chased his assailant. Giordano was taken to his home, where he said he did not know his assailant nor his motive.

The man used a revolver. One bullet ploughed through the thigh of the left leg, the other wounding the right in the calf.

## GOMPERS APPEALS TO ALL UNIONS TO BACK RAIL STRIKE

Workers Urged Not to Do  
Work Abandoned by  
Shopmen.

WASHINGTON, July 19.—An appeal was issued to-day by the Executive Council of the American Federation of Labor "to all workers everywhere to support the railroad workers in their efforts to secure a just settlement of the railroad shops trades dispute."

The appeal, which was issued by unanimous vote of the Executive Council and over the signatures of all its members, including Samuel Gompers, Federation President, has been forwarded to every labor organization in the United States, to every labor publication and to all organizers of the federation. It was announced at federation headquarters.

Organized labor is asked specifically in the appeal to refrain from doing any work formerly done by men now on strike, while the workers on strike are urged to conduct themselves in a law-abiding manner.

President Harding and Attorney General Daugherty conferred at length to-day on the rail strike situation, after which the latter indicated the administration was framing a possible course of action. Daugherty said, however, that the Government will await developments definitely deciding upon any plan.

CHICAGO, July 19.—A walkout of the 400,000 maintenance of way workers on the railroads was virtually averted late last night by the Labor Board.

This came about when the Board indicated that it would grant the Maintenance of Way Brotherhood a rehearing on the wage question and that disputes of this sort would be given the right of way over many other cases. As an expression of good faith it promptly docketed one wage controversy between the maintenance men and the Chicago, Milwaukee & St. Paul Railroad.

Announcement of this action was made following a board conference attended by E. F. Grable, Chief of the Maintenance of Way Brotherhood. New wage decisions, providing a change in the wage scale is made, are to be retroactive to July 1. It was agreed.

The assurances thus given probably will serve not only to avert a walkout of the track men, it was predicted, but it may also have strong influence on the negotiations for a settlement of the strike of the 300,000 shopmen.

In a statement issued following his meeting with the Labor Board members, President Grable said Senator Cummins, who is Chairman of the Interstate Commerce Committee of the Senate, had advised him that he was going to hold hearings immediately on disputed points of the Transportation Act, principally to ascertain how the law may be amended so that the living wage principle would be made clear and so that every employee would be guaranteed a living wage.

This was regarded in some quarters as one of the most important concessions yet offered to the railway unions, which fought passage of the Transportation Act and which have since directed intermittent fire at many of its provisions.

CHICAGO, July 19 (Associated Press).—Only isolated instances of disorders marked the strike yesterday. A non-union employee of the Texas and Pacific Railroad was kidnapped at Shreveport, La., by ten men. An Atlantic Coast Line engineer was shot and killed by a guard to whom he had referred as a "scab" at Wilmington, N. C.

Fresh State troops were sent from Chicago to relieve those on duty at Bloomington, Ill. Mayor Weaver of Denison, Tex., in a message to Gov. Neff, asked that a company of Rangers be sent to Denison. Three alleged strike sympathizers were arrested at Taylor, Tex., on contempt charges. At Muskogee, Okla., all available police reserves were called out to quell two disturbances.

At Superior, Wis., fifty masked men made captive two foremen of the Great Northern Road shops. The masked men continued on their rampage and a plot to raid the roundhouse at Allouez was feared.

Four passenger trains of the Kansas City Southern Railway were annulled. Two of the trains were operated between Shreveport and Lake Charles, La., and two between Shreveport and Texarkana, Ark.

Officials at Dallas said that a acute shortage of fuel oil and coal was likely to develop in Texas within the next week or ten days, due to the scarcity of tank and coal cars as a result of the traffic tie-up.

Striking shopmen, picking railroad yards at Richmond, Va., reported to be photographing non-union men employed in the shops for purposes of publication in labor journals.

A negro employed in the shops of the Florida East Coast Railway at St. Augustine, Fla., was shot and slightly wounded by three masked men.

BOSTON, July 19.—Seven masked men, heavily armed, got past the guards at the Boston and Maine Railroad shops at Concord, N. H., late last night, entered a dormitory where fifty working shopmen were sleeping, drove them out of doors and ordered them out of town, according to a statement issued by the Boston and Maine officials to-day. There was shooting and hand to hand fighting in which several workmen were beaten, one requiring hospital treatment, says the statement.

HARDING OPPOSES AMNESTY TO  
WALK-TIME PRISONERS.

WASHINGTON, July 19.—President Harding was quoted to-day by members of a delegation which presented to him a petition for the release of all persons still imprisoned for violation of war time laws as having said during a forty minute interview that he still adhered to his opposition to a policy of general amnesty.

## Woman Accused of 'Stone Age' Murder, Her Husband and Victim of Slaying

### Mrs. Phillips Has Formed Strong Attraction for Madalynne Obenchain.

LOS ANGELES, Calif., July 19.—The defense which Mrs. Clara Phillips, alleged to have murdered, with a hammer, Mrs. Alberta Meadows, who she believed had won her husband's love, was outlined to-day. Mrs. Phillips will plead not guilty and the defense will be similar to that presented at the first trial of Arthur C. Burch, charged with murdering J. Belton Kennedy.

Testimony will be introduced to uphold the contention that Mrs. Phillips did not commit the crime, but if she did she was temporarily insane and not accountable for her act.

Mrs. Phillips has never permitted the faintest allusion to the crime to escape her lips, which will aid her attorneys in establishing that she has no memory of the murder, even if she did commit it.

The State, however, has had Mrs. Phillips examined by an alienist who reported that she was "not legally insane."

Officers announced they had located a clerk in a downtown store who testified to having said a hammer to Mrs. Phillips the day before Mrs. Meadows' mutilated body was found upon a lonely hillside.

Mrs. Phillips is said to have become intimate with Mrs. Madalynne Obenchain, now on trial for the second time for the murder of her sweetheart, J. Belton Kennedy, and whose cell adjoins that of the alleged slayer of Mrs. Meadows.

"They pass most of their time together," said another woman prisoner. "They talk and read to each other. They read the newspaper stories of proceedings in Mrs. Phillips' case together. Mrs. Phillips smiles most of the time and laughs often. Everybody likes Mrs. Phillips. And she said she thought she would be happy in jail because everybody was so jolly and happy there."

### BRAKEMAN'S RUSE OUTWITS THE BULL

Enraged Bovine Charges  
Train and Holds It Up  
for Half an Hour.

(Special to The Evening World.)  
SYRACUSE, July 19.—An enraged bull fighting a railroad engine held up traffic on the Chenango branch of the New York Central at Earlville, thirty minutes to-day. The animal blocked the track and Engineer Jack Weir stopped the train.

The bull charged and cut his head on the tender. Weir started again but the animal refused to let it pass and renewed its attack.

Unwilling to kill the animal the engineer stopped and in company with Conductor James Weir and Trainman Thomas Owens alighted to lead the animal off the track. The bull charged them and they hastily clambered aboard.

After half an hour vainly trying to start, Owens again descended and let the bull chase him the length of the track. To do so the animal left the track. Weir started the train and Owens clambered aboard the last coach. The bull chased the train several miles.

HARDING OPPOSES AMNESTY TO  
WALK-TIME PRISONERS.

WASHINGTON, July 19.—President Harding was quoted to-day by members of a delegation which presented to him a petition for the release of all persons still imprisoned for violation of war time laws as having said during a forty minute interview that he still adhered to his opposition to a policy of general amnesty.

## BANTON STARTS HUNT FOR CRIME IN FATAL FIRE

(Continued from First Page.)

the wall was expected to facilitate the job of finally extinguishing the fire.

There was one injured fireman who did not get into the official list yesterday because he was injured by the fire. This was Harry Hoeman of Truck No. 12, who sprained his right ankle in a ten-foot drop from the roof of No. 18 Jane Street to that of No. 20. That was yesterday. He did not mention the injury until to-day, when he was relieved because of exhaustion. He was treated and sent home.

This afternoon it became apparent that those who were driven from their homes yesterday, probably will not be permitted to re-enter them to-night, for many hours work remains to be done on the fire. Preparations have been made to house and feed the homeless for another night.

It is believed the fire started from the explosion of a case of magnesium. Seventy persons were injured seriously enough to require medical treatment, more than 200 firemen were more or less overcome and 300 persons were left homeless.

District Attorney Banton issued a subpoena for F. Hareth, Secretary of the P. E. Guerin Company, No. 21 Jane Street, the only known witness, he said, of the first explosion.

"I shall not present any evidence to the Grand Jury to-day," said Mr. Banton, "because I have not yet learned definitely what was in the building nor whether there was a permit for explosives. The chemical analysis of material salvaged from the building has not been completed."

"I have learned that thirty-seven cases of magnesium, an explosive, reached the warehouse March 3 and one case March 13, and that these were being taken out when an explosion occurred in an elevator," said the District Attorney.

Acting Chief "Smoky Joe" Martin, who suffered minor injuries during the fire, and part of the time directed the fight with bandaged eyes from a cot in a nearby store, resumed his place outside last night. He said the place outside last night. He went home about midnight, leaving Deputy Chief Ross in charge. One hundred of the homeless were cared for last night by relatives, and the others by the Red Cross and Salvation Army.

Hundreds of Greenwich Villagers remained up most of the night to watch the firemen. At 1 A. M. fifty extra policemen and the Automobile, Bomb, Italian and Safe and Loft Squads from Headquarters were sent to the scene to prevent the possible looting of stores and residences in the vicinity.

Supreme Court Justice George V. Mullan, whose home is in the Bronx, arrived at midnight with an automobile loaded with refreshments for the firemen.

Edgar Blossom, living at the San Remo Hotel, Central Park West and 74th Street, is President of the warehouse company. In an investigation, headed by Mayor Hylan, who was at the fire, the Bureau of Combustibles was ordered to get evidence of a white powder that gave

## SETTLEMENT NEAR IS INTIMATED BY STRIKE LEADERS

Say, However, They Can  
Hold and Extend Their  
Lines Indefinitely.

From the terminals of all the railroads in this city to-day came reports that the disturbance of their operating schedules due to the strike of the machinists and shopmen had about disappeared. Guards of uniformed police and railroad detectives were maintained in all the yards and power houses, but no bulletins of any disorder were received at Police Headquarters.

Intimations were made by strike leaders that they had reason to believe the railroads were about to settle on terms satisfactory to the strikers. The official statement of the strike committee of this district at the Hotel Continental carried this statement seeming to bear on this privately expressed view:

"We believe the strike can be settled this week, but we can hold and extend our lines indefinitely."

"Better than half" was the estimate of the shop strength the Eastern railroads have retained or recruited since July 1, given to-day by John G. Walber, Secretary of the Bureau of Information of Eastern Railways at Grand Central Terminal.

"Fifty to 60 per cent," Mr. Walber said, "or double the shop strength July 5."

The strike will be "drawn out," Mr. Walber predicted, and would be settled by "a gradual drifting back to work of the men, rather than by any outright surrender on the part of the leaders or annulment of the strike order now in effect."

Explaining that he had authority to speak for the railroad executives of the association Mr. Walber said the agreement signed by the Pennsylvania Railroad and the representatives of its 140,000 employees yesterday was a model.

"There is not an Eastern railroad," he said, "which would gladly adjust the whole Pennsylvania war scale."

He asserted that B. M. Jewell, head of the short craft workers, had greatly over-stated the numerical strength of his organization and that for various reasons he did not believe that the prediction that the clerical men and signmen would join the strike, was any more likely to come true than the similar prediction of several days ago regarding the maintenance of way men.

### JAIL CAN'T KEEP JOCKEY FROM RACE

Butwell, Locked Up in  
White Plains, May Visit  
Track Daily.

Instead of being confined to the White Plains jail limits, Jimmie Butwell, jockey for Walter Salmon at the Empire City Race Track, Yonkers, will be permitted each day from now until July 28 to ride his employer's horses. This was stipulated before Justice Morschauer in the Supreme Court to-day, when Butwell was in court on a return of a writ of habeas corpus.

Butwell was arrested at the track a few days ago after he had piloted his third mount to victory. He was lodged in the county jail on a body execution, following judgment against him in New York County for \$25,134.

Butwell was sued by Edward A. McKitterick, a ship broker, No. 27 Williams Street, Manhattan, for personal injuries sustained when he was struck by an auto driven by the jockey. McKitterick claimed he is crippled for life. Butwell never answered the suit and judgment was taken by default.

### TROLLEY SERVICE ENDS AFTER RIOT

Conductor Rescued From  
Mob Threatening to Toss  
Him Into Creek.

BUFFALO, N. Y., July 19.—Rioting became so serious on the east side this afternoon that President Tulley of the International Railway Company ordered a suspension of service on the Seneca Street line.

The crew of one car was terribly beaten. John Criddon, conductor, from the Buffalo World, was taken to a hospital after being rescued from a mob, which was threatening to throw him into Buffalo Creek.

## BOHN Refrigerator Sale

Smashing Reductions!  
25% to 50%

Discount from Regular List.

(The New Strauss Bldg.), 3 doors East of 5th Ave. Phone Vansant 1827.

## IN HEAVY FIGHTING NATIONALS CUT OFF LIMERICK REBELS

Capitulation of Irregulars in  
Strand Barracks Thought  
to Be Imminent.

DUBLIN, July 19 (Associated Press).—News reaching Dublin this morning confirms the earlier reports that heavy fighting occurred in Limerick over the week-end, the National army troops succeeding in isolating the irregulars in the Strand barracks and King John Castle. The capitulation of the insurgents is believed to be imminent.

A traveller who arrived here from Cork to-day brought the information that the irregulars there were making elaborate preparations to defend Cork City. Hotel visitors have been turned out of their quarters and only allowed to take a few personal belongings, being told that their bulkier luggage would make good barricades.

In the Limerick fighting the Nationalists, on Saturday evening, operating in armored cars, poured a hail of bullets into the Strand Barracks and also used land grenades freely.

The Free State forces resumed their operations early Sunday. One wing of the barracks caught fire and when the advice was despatched the Nationals were awaiting the surrender of the garrison.

### SCREAMING SISTERS AROUSE COURTROOM

Yetta and Bessie Judlowitz  
Sent to Hospital for  
Observation.

The calm of the Gates Avenue court was disturbed to-day while Magistrate Dodd was trying the Misses Judlowitz—Yetta and Bessie—on a charge of disorderly conduct brought by their landlady, Mrs. Anna Reichling of No. 68 Park Avenue, Brooklyn. Mrs. Reichling charged Bessie struck her with a stick last Monday, while Miss Yetta urged her on.

In the midst of Mrs. Reichling's testimony the sisters suddenly leaped in the air and, throwing away their hats and pulling their hair, started screaming. "You're a liar!" and "Why don't you tell the truth?" were among their remarks.

Other women in the room started for the door in a panic. Court attendants subdued the two women. Magistrate Dodd ordered the sisters removed to the psychopathic ward of Kings County Hospital for observation.
